There was a shooting scrape across the river Sunday. Grady Reynolds went to the Lynne postoffice and asked for his mail, which was refused for us informed, because he went out of hours. An altercation followed in which Reynolds was shot in one leg by Addison Hicks, son of the postmaster. Reynolds was brought to the hospital and several buckshot extracted from his leg. He is not seriously hurt. No arrests have been made. The two young men are cousins.

Ocala was in a critical situation for a while last Friday afternoon and evening. One of the engines at the pumping station broke down, and before it could be repaired, the other also went out of business. For a little while, the southeastern part of town had no water, and had a fire broken out great loss might have followed. Superintendent Campbell worked hard to repair the damage, in which he was aided by Mr. Meffert. If it hadn't been that the foundry was able to repair a broken part, the city would have been without water for days. This emphasizes the necessity of going ahead as fast as possible with the new water and electric plant.

"On account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to go to the case for two days. Failing to get any relief from any other treatment, I took three of Chamberlain's Tablets and the next day I felt like a new man," writes H. C. Bailey, editor Carolina News, Chapin, S. C. Mr. Pyles is now at his pretty country home and it is the sincere wish of everyone that he will rapidly regain his strength and be entirely well.

## IN THE WORLD OF SPORT

Lee Magee, Manager of the Brooklyn Federals.

Photo by American Press Association.

Lee Magee, manager of the Brooklyn Federal league club, played last season with the St. Louis Nationals. Last winter he jumped to the Feds, and Owner Ward put him in charge of the team. Magee is the youngest manager in any of the big leagues. His real name is Leo Hoernschmeyer, and a few years ago he was assistant ground keeper at the Cincinnati ball park. Practicing with the players every morning, he developed into a very clever player, and soon he was in the National league. Magee's position is second base. Lee is a rather hot-headed youngster, and in the first championship game at Brooklyn he was put out of the game and fined \$50.

Lightweights a Poor Lot.  
"The poorest lot of lightweights in the history of the ring grace it now," says Frank Erne, former lightweight champion. "I don't like Welsh at all. I never saw Nelson, but I am sure that Wolgast could have whipped him at any stage of his career. I didn't go to see Shogrus or White because they are so poor that it would be wasting an evening. I think Elbows McFadden, Dal Hawkins, Lavigne or Spike Sullivan could have cleaned them all up one by one."

Griff Will Develop Youngsters.  
That the days of buying ball players at big figures are almost at an end is generally conceded. Manager Griffith of the Washington Americans already has declared himself on that proposition. He says his players hereafter will come from the lots and remote leagues and he will develop them himself. No longer will he recommend the club to dig down in its jeans for the purpose of spending its money for talent only a small percentage of which ever makes good.

The satisfactory proposition about developing players is that they are usually very young when they reach the stage when they can be used regularly and consequently last for years, not necessitating the output of additional money from time to time.

English Golfers to Visit America.  
Although it was rumored that none of the English professional golfers would visit America this year, it seems to be a certainty that, in addition to Harry Vardon, who has decided to play here, at least three or four others will come over in time to take part in the open tournament at Baltusrol, Short Hills, N. J., next June. Edward Ray, James Braid, George Duncan and J. H. Taylor are expected to make the trip, and their coming will be welcomed by golfers everywhere in this country, where the game is making wonderful progress.

Yale-Harvard Boat Races.  
The chairman of the committee of arrangements for the Yale-Harvard regatta has announced that the varsity eight oared race will be rowed up stream on the Thames river between 4:30 and 5 p. m. on Friday, June 25. The morning race, which will start shortly after 10 o'clock, will be either a four oared event or one of substitute freshmen eights and will be rowed from Red Top to the navy yard. The regular freshman eight race will be from the navy yard to the drawbridge.

Herzog Optimistic.  
Manager Herzog of the Cincinnati Reds says his team is the best Cincinnati has had since 1908. All that he needs now, he thinks, to make sure of the first division is one more star pitcher. Herzog says his players are all hustlers and bitters. Charley Doolin and Tommy Leach have aided the team greatly.

## FLORIDA CITRUS EXCHANGE

The citrus production of Florida is increasing by leaps and bounds. Demand must be made to keep pace with the increasing supply.

There is just one way by which to make markets for the coming citrus crop of Florida—by intelligent advertising to develop wider use of our oranges and grapefruit.

The Florida Citrus Exchange foresaw present conditions some years ago and began to plan for taking care of the future. It has been the only aggressive force in the work of increasing the demand for Florida oranges and grapefruit.

There have been remarkably good results considering the limited amount of money the Exchange has had for this educational work. It has been proven that there may be made ample demand at good prices for all fruit in the state. Join the Exchange!
